❓ Please tell me about your previous academic history.

I am Tarang Yogeshbhai Patel, a student with a good academic background and interest in computer applications and technology. I completed my Secondary School Certificate (SSC) in 2020 from GSHSEB with 56.67%, and then my Higher Secondary Certificate (HSC) in 2022 from the same board with 73.71%. My interest in computers and software motivated me to study Bachelor of Computer Applications (BCA) at Sardar Patel University, where I completed my degree in 2025 with 8.24 CGPA.

During my studies, I developed skills in analytical thinking, problem-solving, and technical knowledge, which increased my passion for further education. Now I want to improve my skills through advanced studies and build a successful career in the field of information technology

Do you know about the BYOD Policy of BPP University ?

My university has a Bring Your Own Device (BYOD) policy.

Because of this, I can use my laptop, tablet, and other personal devices for study.

It helps me make the best use of my own technology.

I always follow the rules of the policy.

I also keep my personal information safe and secure.

What is your Univerisity's location?

My chosen campus is Portsoken Street of BPP University. It is located in central London, at Portsoken Street, London, E1 8PH, United Kingdom, close to Aldgate and Tower Hill stations, making it easy to travel from different parts of the city.

❓ Please demonstrate your English Capability.

As proof of my English proficiency, I am presenting a Medium of Instruction certificate. I completed my Bachelor’s degree in Computer Applications at Sardar Patel University, where the entire program was taught and examined in English. During my studies, I used English for lectures, textbooks, coursework, presentations, and exams, which helped me develop strong skills in reading, writing, listening, and speaking.

❓ Why do you want to study in UK?

I have selected UK for my higher studies because of some factors. The UK education system is globally recognized, with high academic standards and a strong focus on practical learning. The universities provide quality education with industry-oriented curriculum and excellent research opportunities, which help students gain both theoretical and practical skills. Master’s degrees in the UK are shorter in duration compared to many other countries, which saves time and reduces overall cost while keeping the same value. The UK system also focuses more on critical thinking, innovation, and job skills, making graduates highly competitive in the global job market. Along with this, the

multicultural environment, good student services, and post-study work options make the UK the best choice for my higher education.

❓ Why did you select BPP University?

I chose BPP University because it offers a well-planned course structure with practical learning through real business tasks. This helps students gain useful workplace skills and matches my career goals. The university also provides extra academic support and career guidance, so students can prepare well for jobs and succeed in their careers.

BPP has qualified and supportive teachers who make learning easier and keep students motivated. It also supports international students and uses modern technology to improve learning. The campus is safe and welcoming, helping me stay focused and comfortable during my studies. Another strong reason is that BPP has a 96% student satisfaction rate, which shows that most students are happy with their learning experience.

BPP's strong focus on management studies ensures that I can build the right skills for my future career.

❓ What other universities you compared?

Before finalizing BPP University, I considered universities namely Ravensbourne University London, but BPP is a better fit for me. I chose MSc Management with Data Analytics at BPP because it has an industry-focused curriculum, professional accreditation, and strong student support. BPP is well known for practical learning, experienced teachers, and close links with global businesses, which match my career goals in management and analytics. The course at BPP gives more focus on analytical learning, real projects, and career growth compared to Ravensbourne University. Ravensbourne is more creative and media-oriented, while BPP is specialized in business and professional education. That is why BPP provides a better academic environment, stronger corporate exposure, and better career opportunities for me.

❓ What modules will you be studying in your course?

I will study eight modules in total during my MSc Management with Data Analytics course:

- Leading Through Digital Change (15 credits)

- Managing Customer Experience (15 credits)

- Principles of Management (30 credits)

- Organisational Strategy and Sustainability (15 credits)

- Consultancy Project Proposal (15 credits)

- Emerging Technology and Cloud Computing (30 credits)

- Programming and Data Modelling (30 credits)

- Business Consultancy Project (30 credits)

❓ Can you explain the modules?

Yes, sure:

- Leading Through Digital Change

I'll learn how digital tools and strategies help businesses grow and adapt to change.

- Managing Customer Experience

This module teaches how to improve customer service and understand customer needs in today's global market.

- Principles of Management

I'll study how managers make smart decisions, lead teams, and solve business problems.

- Organisational Strategy and Sustainability

I'll learn how companies plan for long-term success and make sustainable choices.

- Consultancy Project Proposal

I'll prepare a plan for my final project, including research questions and methods.

- Emerging Technology and Cloud Computing

This module teaches about new technologies like cloud computing and how they support data analytics and business decisions.

- Programming and Data Modelling

I'll learn programming languages such as Python, R, and SQL to solve real data problems and build models.

- Business Consultancy Project

I'll work on a real business problem and apply everything I've learned in the course.

❓ What is your favourite module and can you explain it?

My favourite module is Programming and Data Modelling. I enjoy learning how to use coding and data tools to solve real problems. It helps me understand how to analyse data and make better business decisions.

❓ Which modules are you looking forward to study?

I'm especially looking forward to these three modules:

- Emerging Technology and Cloud Computing – I want to learn how new technologies are changing business and data analytics.

- Business Consultancy Project – I'm excited to solve a real business problem and apply my learning.

- Principles of Management – I want to strengthen my leadership and decision-making skills.

❓ What is the structure of the course?

The MSc Management with Data Analytics course is a 12-month full-time program. It includes eight modules in total, with each module carrying either 15 or 30 credits, adding up to 180 credits. The course covers key areas like digital change, customer experience, leadership, sustainability, emerging technologies, programming, and consultancy projects. It combines theory with practical learning, including assignments, presentations, and a final consultancy project. This structure helps students build strong management and data analytics skills for real-world careers.

❓ Why have you selected this course?

I chose MSc Management with Data Analytics at BPP University because it matches my career goals. I finished my BCA in India, which gave me a strong foundation in computer applications, programming, and data handling. Now I want to build advanced skills in management and data analytics to grow in my career.

This course has a well-structured curriculum that combines management studies with practical data analysis. It will help me learn how to handle complex business problems, apply technology to improve decision-making, and use data effectively in real work situations. By studying this program, I will gain both theoretical knowledge and practical skills that will prepare me for professional roles in management and data analytics, and allow me to contribute meaningfully to the industry.

❓ In which field will you work in future?

I want to work in the data analytics and business field in India. My goal is to help improve business operations and support companies in making better decisions using data.

❓ Why do you want to work in India after studying in the UK, and not in other countries or in the UK itself?

India is my home country, and I feel it is my responsibility to help the people and businesses here. I want to use my knowledge to bring positive change in my own country and grow my career in India.

❓ How does your chosen course relate to your previous study?

This chosen program is related to my previous study because I completed Bachelor of Computer Applications (BCA), where I learned the basics of computer programming, databases, and information technology. The MSc Management with Data Analytics is an advanced version of my previous study, as it combines management skills with data analytics.

❓ 1) What is your future goal? / How will this course help you in your future career?

After I complete my MSc in Management with Data Analytics at BPP University, my main goal is to return to India and build a successful career in the growing analytics and management industry. India is becoming a leader in data-driven decision-making, and I want to use my international knowledge and technical skills in this market. I plan to work as a Data Analyst, Business Analyst, Management Consultant, Project Manager, or Business Intelligence Analyst. My aim is to join top companies like TCS, Infosys, Wipro, Reliance, Accenture, Deloitte, or Amazon India. As a fresher with international qualifications, I expect a starting salary of around INR 6–10 lakhs per year, which will grow as I gain experience. In the long run, I want to move into senior management and decision-making roles in India.

❓ 2) How studying this course will help you in future?

Studying this course will give me advanced knowledge in management and data analytics. It will train me to solve complex business problems and make smart decisions using data. The practical learning will help me apply these skills directly in real jobs. This will improve my career opportunities and help me grow into senior positions in the future.

❓ 3) When you come back to India, how will you help improve the sector?

When I return to India, I will use the skills I gain from this course to improve the data analytics and management sector. I will help companies use data more effectively to make better decisions and improve their performance. By applying international practices and modern technology, I can support Indian organizations in becoming more efficient and competitive. This will contribute to the overall growth of the industry and benefit the Indian economy

❓ 1) What are your accommodation plans in the UK?

I have arranged accommodation at 2 Chesnut Road, London, N17 9EN, United Kingdom. I found this place through accommodation.co.uk, and it stood out as a safe and student-friendly area with good access to public transport and daily services. After checking the location and amenities, I feel confident that it will support my academic journey and provide a comfortable living environment.

❓ 2) How far is your accommodation from your university?

My accommodation is around 7.5 miles from BPP University's Portsoken Street campus. The journey takes about 35–40 minutes by train and Underground, depending on the time of day. The location is well-connected through nearby stations such as Tottenham Hale and Seven Sisters, making it convenient to travel to the university regularly.

1. Do you intend to work during your studies in the UK? No, I do not intend to work during my studies in the UK. My full focus will be on my academic progress and making the most of the learning experience. I believe this is essential to perform well and achieve my educational goals.

2. Are you planning to take up any employment while pursuing your course? No, I have no plans to take up employment while studying. My priority is to concentrate on my course and maintain strong academic performance throughout. I want to utilise my time fully for study and university-related activities.

3. Will you be relying on income from work in the UK to pay your tuition fees or living expenses? No, I will not rely on any income from work in the UK to cover my tuition fees or living costs. Both are fully sponsored by my father, which gives me complete financial freedom and stability.

Question: If you face any difficulty after going to the UK, whom will you contact?

Answer:

If I face academic difficulties in the UK, I will take help from my professors and friends because they can guide me in my studies. For other problems, I will search online, ask local people, or use social media to find solutions. In this way, I can manage challenges and adjust better.

Question: Are you planning to work part time?

Answer:

I know that I am allowed to work 20 hours per week as per UKVI rules. But I am not planning to work part time because I want to give full focus to my studies.

Question: After completing your studies, are you planning for PSW in the UK?

Answer:

No, I do not plan to apply for Post Study Work in the UK. After completing my studies, I will return to India to build my career and contribute to its growth.

Question: What will you miss from India after going to the UK?

Answer:

I will miss my family and friends the most after going to the UK. But I believe for career growth it is important to leave my comfort zone and explore new opportunities.

Question: What difficulties will you face in the UK?

Answer:

I may face academic difficulties like adjusting to new teaching methods and study patterns. I may also face challenges such as adapting to a new lifestyle, making new friends, and living in a different environment. With time and support, I am confident I can overcome these challenges.

Question: What else do you know about the UK?

Answer:

The UK is known for its modern facilities, excellent healthcare, and world-class education system. It celebrates festivals like Christmas, Easter, Diwali, Eid, and New Year with joy and unity. The country also has clean public transport, beautiful parks, and a safe, diverse environment for students.

1. Why did you select Portsoken Street campus?

I selected the Portsoken Street campus because it is located in central London, which is a great city for students. London offers excellent transport connections, safety, and many student-friendly facilities. The campus location makes it convenient and supportive for both study and daily life.

2. What places do you like to visit in London?

I would like to visit the London Eye, Buckingham Palace, and St. Paul's Cathedral. My friends who live in London recommended these places, saying they are perfect for sightseeing, learning history, and enjoying the city's beauty.

3. Why did you select London as your city?

I chose London because it is a global city full of opportunities. It provides high-quality education and a multicultural lifestyle.

- London has many top universities and professional institutions.
- The city's public transport system is excellent, making travel easy and safe.
- It offers strong career opportunities in fields like business, healthcare, and management.
- London's diverse culture allows me to meet people from different countries and learn from their experiences.

4. What is the difference between the UK and London?

The UK (United Kingdom) is a country made up of four parts: England, Scotland, Wales, and Northern Ireland. London is the capital city of England and also the largest city in the UK. So, London is just one part of the UK, not the entire country.

Who motivated you to study in UK?

Since childhood, it has been my dream to study in the UK.

I was always fascinated by UK culture, history, and global exposure.

This dream motivated me to choose the UK for my higher studies.

I believe studying there will give me the best education and international experience.

Also, my friends who are already there in UK and studying, they suggested me to choose UK.
